UT20625A, B	I725CC	UT20658A	S-2030
UT20627A	I630CD	UT20674	LT251E
UT20628B	I730CC	UT20675	CBE50

Complaint or Symptom:

Expand-It attachments do not fit the new trimmers, couplers are different on the new model string trimmers.

Situation:

This new Quik-Tatch coupler (A) used on the new Yard Smart Series of trimmers is different than the Expand-It coupler (B) used on all prior attachment capable Homelite® models. Because of this the new Versa Task Attachments using the Quik-Tatch coupler are not interchangeable with Expand-It attachments.

A

B

Solution:

Order the correct part number attachment for the proper unit.

Versa Tool Attachments for current units.		Expand-It Attachments for all units built prior to 2000.	
(Yellow Knob Coupler)		(Black Knob Coupler)	
Blower (BA250)	UT15511	Blower	UT15500
Edger (EA250)	UT15513	Edger	UT15502
Cultivator (CA250)	UT15514	Cultivator	UT15501
Brushcutter (BCA250)	UT15512	Brushcutter	UT15503

Additional Information:

- The new Homelite® Yard Smart Units & Versa Task Attachments using the Quik-Tatch attachments are interchangeable with other brands such as Ryobi and Craftsman.
- Each new Versa Task attachment will come with a hanger cap to keep dust and dirt out while also supplying a way to hang the attachment for storage.
- All Homelite® and Green Machine® Expand-It units built before 2000 used the same Expand-It coupler. This allowed the split boom attachments to be interchangeable with both of these brands attachment capable units.
