

SB, 3120XP, Ignition system 2001-01

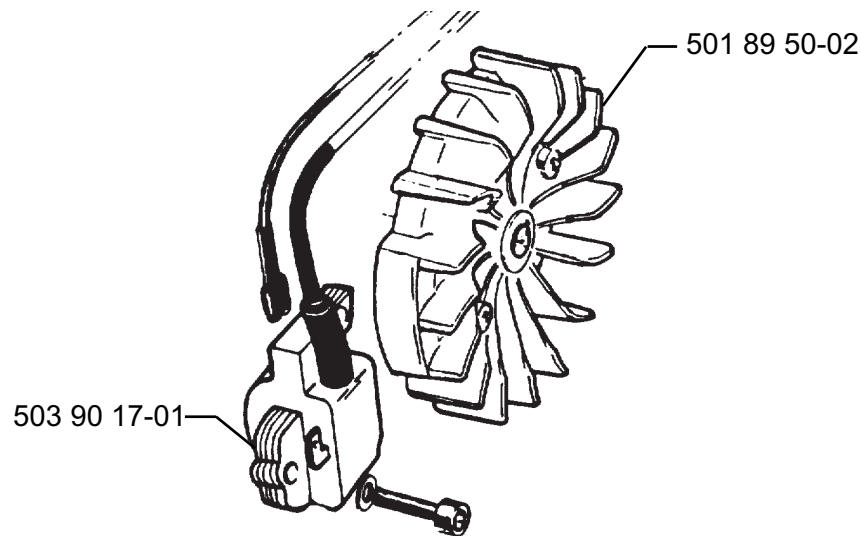

An ignition system with a speed limitation of maximum 9,750 +/- 250 rpm will be fitted to variants 965 96 00-06 and 965 96 00-07 (USA and Canada). The ignition systems can be distinguished as the latter is coloured green while the earlier is black.

This also means that a flywheel with another ignition timing is fitted.

Note! None of these parts can be combined with previous designs.

Parts in the earlier design remain as spare parts for other variants.

New Ref. No.	Description	Excl. Ref. No.	Remarks
503 90 17-01	Ignition system		included in 3120 K
501 89 50-02	Flywheel		

Introduced into production from serial number:	3120 XP	
	variant 965 96 00-06 00	004900001
	variant 965 96 00-07 00	004800001
