SB, 322, 325 C, L and RJ - versions, throttle lever, 2001-03

In order to improve the strength of throttle lever 503 91 81-01, the material has been changed and a number of radii have been increased. The throttle lever previously had a white finish. Due to the change in material it now has a black finish. The black throttle lever has been introduced into production from serial numbers starting with 0046. The part number remains unchanged.
