SB, 250 PS, Bar mounting, 2001-05

A new bar mounting has been introduced for the pruning saw shaft. This now has the same type of bar mounting as our smaller chain saws. The chain is a 3/8" model 90SG.

The pruning saw shaft is supplied as standard with a 10" bar. An optional 12" bar is also available. The new bars operate more reliably and have better lubrication than earlier versions.

All the parts for the earlier bar mounting are still available as spare parts.

New part no.	Description	Excl. part no.	Remark
537 16 49-01	Bar mounting assy.
