## SB, Trimmy S II, 2002-06

We will be changing the driver and support flange on a number of machines so that they can accept cutting attachments with a 1" centre hole.

This applies to models 227, 232, 240RJ/RBD, 235, 142R, 142RBD and 152RBD. These were previously designed for a 20 mm centre hole.

Before the Trimmy S II can be used on these machines with a 1" driver, a new top section (reel housing) must be fitted that has a modified washer on top.

The new top section (reel housing) that is designed for the 1" driver will also fit earlier machines with a 20 mm driver.

All other parts will retain their part numbers.

The new reel housing will therefore fit older versions of Trimmy S II.

New part no.	Description	Excl. part no.	Remark
502 26 04-02	Reel housing	502 26 04-01	
502 26 08-11	Trimmy S II	502 26 08-01
