SB, Rider ProFlex 21, Spark plug, 2003-04

A softer spark plug (NGK BPR 2 ES) is now recommended for users who experience problems with carbon deposits on the original spark plug (NGK BPR 4 ES).

This spark plug is only intended for the Rider ProFlex 21 with Kawasaki FH641V (21 hp) engines.

Please source the new spark plug from your normal supplier.
