## SB, 365 Special, Cylinder, 2003-11

In order to safeguard production over a limited period, a number of versions will be fitted with the same cylinder that is normally only fitted to EPA versions intended for the US and Canadian markets.

### Versions

This applies to all versions that are normally fitted with cylinder 503 69 10-73.

### Differences

The cylinder has the same intake system as the 372 XP.

### Spare parts

The new part number of the cylinder assembly is 503 93 90-03, and this includes the inlet manifold and clip.

New part no.	Description	Excl. part no.	Remark
