Saw heads and hedge trimmer heads have separate serial numbers that are not connected to the engine serial number. These serial numbers are shown on a yellow label. Service bulletins that cover changes to the saw heads and hedge trimmer heads refer to this serial number. The engine serial number must however be used when making guarantee claims.

The serial number consists of a letter that indicates the year of manufacture, followed by a six-figure consecutive number.

The following letter codes are used for the years:

1997 S
1998 T
1999 U
2000 V
2001 W
2002 Y
2003 Z
2004 A
2005 B
2006 C
and so on.
