

**MODEL 2100**

CHAIN BRAKE - HAND GUARD

In order to increase the strength in the hand guard of the chain brake, the following changes have been made:

- another material with better strength,
- the same tube thickness around the whole hand guard.

In order to distinguish the present version from the previous one, the following number changes are made:

<u>New Ref. No.</u>	<u>Denomination</u>	<u>Excluded Ref. No.</u>
503 41 34-01	Chain brake compl. standard	501 83 36-05
503 41 35-01	Hand guard, standard	501 83 32-01
503 41 34-02	Chain brake compl. "WA"	501 83 36-06
503 41 35-02	Hand guard "WA"	501 83 32-03

The other parts of the chain brake are not influenced by the change.
