

MODEL

181NEW AIR INTAKE

In order to improve the air filter function, the air intake now is taken on the fan side of the cylinder cover intermediate wall. At the same time, the previous air intake around the throttle trigger is closed with a rubber grommet.

<u>New Ref. No.</u>	<u>Denomination</u>
501 91 65-01	Air intake
501 91 63-01	Rubber grommet

In the cylinder cover compl. 501 80 59-02, which keeps its earlier reference number, the air intake 501 91 65-01 is included.

In order to be able to assemble the new air intake in a cylinder cover of older type, an opening in the intermediate wall must be made according to the illustration.

The change has been introduced from serial number 181 SE 5403426.
