Oil plug

To be able to offer oil plugs for the bevel gear, where the thread has broken we have introduced an oversized thread as a spare part.

The new oil plug also fits to bevel gears where the thread is intact, and therefore it replaces previous oil plugs.

New Ref. No.	Description	Ref. No. excluded
502 11 59-02	Oil plug	502 11 59-01
502 11 59-02	Oil plug	502 00 88-02
