MODEL 165 RX

AIR FILTER

In order to obtain a better sealing between the filter holder, filter cover and airfilter the following changes have been made:

- Sealing collar on filter holder and filter cover
- Air filter with sealing

At the same time the diameter of the hole in the filter cover for adjusting the idle speed has been increased, to allow easier adjustment of the idle screw using the carburetor screwdriver. Since both the filter holder and the filter cover must be replaced when changing over to the new design these new parts are available as a kit ref. no. 502 26 63-01 filter holder, complete. Existing air filters, ref. no. 502 10 54-01 airfilter (standard) and ref. no. 502 10 54-03 air filter (NW) remain unchanged.

To simplify identification of the new air filters the air filter frame is painted grey or orange.
 NOTE! Use only grey or orange air filters with ref. no. 502 26 63-01 filter holder complete. These filters will also fit earlier versions of filter holder.

Introduced from serial no. 1090001.

New Ref. no.	Description	Excluded Ref. no.	Remarks
502 26 63-01	Air filter holder, compl.	502 10 57-01 502 10 52-01	
	Filter gasket	502 10 89-01	*

* remains available as spare part.
