NEW AIR FILTER, HEAVY DUTY TYPE

On some versions of the model 272, a new air filter will be introduced designed for extremely “dusty” conditions. The Ref. no. shows below. The air filter is cleaned as usual and can preferably be washed in an oil-fuel mixture.

NOTE! Air filter compl. Ref. no. 503 51 65-01 a so called lubricated foam filter remains as a spare part only during a transitional period.
