MODEL 165 RX

CYLINDER COVER

In order to lower the working temperature of the cylinder an air vent has been made in the cylinder cover.

Ref. no. 502 00 25-02 cylinder cover, complete, remains unchanged.

The new cylinder cover is fully interchangeable with the earlier version.

Introduced from serial no. 1090001.

You can easily modify your present stock by using the illustration below.
