MODEL 250 RX, 244 GX

In order to reduce the load on the upper bushing in the tube, a clutch cover with double ball bearings is introduced.

At the same time, the attachment between the drive shaft and the clutch drum is changed from splines to threads.

The change is introduced from serial number 250 RX -1100186
244 GX -1190001

New Ref. No.	Description	Excluded Ref. No.	Remark
502 04 25-04	Clutch cover compl.	502 04 25-03	1)
502 26 31-01	Clutch drum	502 25 10-01	1)
502 25 97-01	Drive shaft compl.	502 04 22-01	1)
	Washer	735 38 14-04	1)
	Nut	503 22 21-02	1)
