## MODEL PS 50

### SUSPENSION/HARNESS

In order to receive a more stable suspension of the engine unit, a stronger AV-element is introduced between the suspension frame and the hydraulic tank. Also the upper AV-element to the harness is replaced. At the same time, the diameters of the recesses in the hydraulic tank are increased from 22 mm (0,87") to 26 mm (1,02").

The hydraulic tank Ref. no. 502 41 25-01 remains unchanged.

The change is introduced from serial number: 1010001.

| New Ref. no. | Description | Excluded Ref. no. | Remark |
|--------------|-------------|-------------------|--------|
| 501 26 97-02 | AV-element  | 501 59 41-01      | *)     |

\*) Remains as a spare part
