

## Models 281/288

### New oil pump

In order to improve the sealing against dirt, a new worm gear and a new pump piston is introduced. This means a labyrinth sealing instead of a V-ring. The same solution is available on the model 394.

New Ref. No.	Description	Excl. Ref. No.	Remark
503 69 81-01	Oil pump compl.	501 80 25-01	
503 55 75-01	Worm gear	501 80 30-01	R
503 69 82-01	Pump piston	501 29 37-01	R
503 23 00-58	Washer	503 23 00-14	
503 62 59-01	Clutch drum rim compl.	501 59 77-02	R
	3/8" x 7		
	V-ring	501 27 74-01	R
	Plastic sealing	501 59 82-01	R
	Clutch drum spur compl.	501 54 02-01	R
	3/8" x 8		

R = Replaced parts remain as spare parts

NOTE! The new worm gear and the new pump piston do not fit old saws/oil pump housing.

When purchasing a new oil pump compl, a new worm gear must be ordered separately.

Clutch drum ref. no. 503 62 59-01, should be used to the new oil pump.

The other included parts in the new oil pump are identical with the previous design.

Introduced from serial number:

281 (11) 3340375  
(14) 3340001  
288 3350001
