

Model 36/41

Cylinder

In order to increase the cooling of the exhaust port and with that to lower the cylinder temperature, the following new parts are introduced in our production.

- heat insulator
- cooling air conductor
- gasket, silencer

The cylinder is changed in order to fit this modification.

New Ref. No.	Description	Excl. Ref. No.	Remark
530 06 94-17	Cylinder compl.	530 01 48-23	H 36*
530 06 94-14	Cylinder compl.	530 01 48-22	H 41*
530 03 76-52	Heat insulator		
530 03 76-40	Cooling air conductor		
530 01 92-05	Gasket, silencer		

* In order to simplify the service work and the spare parts handling the new cylinders above are available as a kit. (See ill)

For more information see service bulletin X 92.125A under tab 5.

Introduced in production from: H 36	3260974
H 41	3360000
