Subject                TROY-BILT TILLER PARTS

We have received many calls regarding parts for Troy-Bilt Tillers. This Service Advisory will address issues relating to replacement service parts for Troy-Bilt Tillers we offer for sale.

Every dealer that placed a pre-season Wholegoods order for Troy-Bilt Tillers should have received a copy of the illustrated parts listing for each of the three tiller models shown above. You should use these parts listings to determine what parts will be available for you to order and sell. Replacement service parts for Troy-Bilt Tillers we do not offer for sale must be ordered through a Troy-Bilt Dealer.

Previously, the "GW" prefix was added to the Troy-Bilt Tiller part number and required when placing a parts order. Effective immediately, this prefix is no longer needed except for three part numbers. They are GW-11601 - main drive shaft on the Horse Tiller, GW-11603 - main drive shaft on the Pony Tiller, and GW-96512 - 12 volt battery. Part numbers 11601, 11603, and 96512 are valid numbers for MTD Products. Please make a note of this in your Dealer Business System to avoid ordering the wrong parts.
