### TYPE NUMBERS

0105, 0125, 0130, 0131,  
0205, 0209, 0211, 0219,  
0221, 0222, 0224, 0225,  
0229, 0230, 0231, 0232,  
0233, 0235, 0376.

### TO FIND

### THE CORRECT NUMBER OF THE PART YOU NEED:

### FOLLOW THE INSTRUCTIONS BELOW

- A. Refer to Model, Type and Code Number that is located on the engine. Engine type numbers such as 0123 01 are listed only as 0123 in most instances. The two digits (01, 02, E1, etc.) to the right of the space may be required for more accurate parts identification in some instances. Select the Illustrated Parts List covering the correct Model Series and Type Number.
- B. Refer to the Illustrations and compare the original part with Illustration. The number next to the illustration is the Reference Number. Assemblies include all parts shown in frames. All parts shown in assembly frames having individual reference numbers can be purchased separately.
- C. After the Reference Number has been identified, refer to the Numerical text, where Reference and Primary Part Number are listed. **THE PRIMARY PART IS USED ON ALL TYPE NUMBERS EXCEPT THOSE TYPE NUMBERS UNDER NOTE.**
- D. If a Note appears below the Primary Part Number, it means that this part differs from the Primary Part for certain types. If your Type number is listed under Note, order the part referred to at the Note.
- E. If your Engine Type Number does not appear after any part number listed under Note, use the Primary Part Number.
- F. For Engine Type Numbers not covered by this book, check other Parts Lists having the same engine model or contact your source of supply.
- G. **REFER TO REPAIR MANUAL MS 1055 FOR ASSEMBLY AND/OR TORQUE REQUIREMENTS.**
