

Wiring Diagram & Schematic SAFETY WARNINGS

Safety Alert Symbols

The safety alert symbol () is used to identify hazards that can result in personal injury. A signal word (**DANGER**, **WARNING** or **CAUTION**) is used with the alert symbol to indicate the potential severity of injury. In addition, a hazard symbol may be used to represent the type of hazard.

 **DANGER:** Indicates a hazard which, if not avoided **will result in death or serious injury**.

 **WARNING:** Indicated a hazard which, if not avoided **could result in death or serious injury**.

 **CAUTION:** Indicates a hazard which, if not avoided **might result in death or serious injury**.

CAUTION: When used without the alert symbol, indicates a situation that could result in damage to equipment or components.
