SB, 357 XP, Cylinder, 2003-05

When the automatic decompression valve was introduced a connecting nipple was fitted to the cylinder. A cylinder assembly with a plug fitted to this nipple is available as a spare part so that the cylinder can be used without a decompression valve. A clip has been introduced to ensure that the plug remains in place.

New part no.	Description	Excl. part no.	Remark
537 24 85-02	Cylinder assembly		Part no. unchanged
537 18 00-01	Plug		Part no. unchanged
503 55 22-01	Plug*		Part no. unchanged
537 32 09-01	Clip		

*Note that the plug is not included in the cylinder assy
