SB, 346 XP, 350, 353, Metric screws, 2003-11

The screws that fasten the bearing cap and cylinder base to the crankcase have been replaced to improve the strength of the screw joint reinforcement. Metric screws replace the self-tapping (PL) screws. New and old parts are not fully interchangeable. PL screws 503 21 74-25 must be used on saws with serial numbers earlier than those shown below.

Introduced from serial number:

346XP	034100201
350	034106001
353	034200001

New part no.	Description	Excl. part no.	Remark
725 53 33-55	Screw MC6S		
537 32 40-01	Bearing	503 88 59-02	350
537 17 19-03	Crankcase assy.		346XP, 353 (screws included)

Remark: For model 350 the crankcase assembly (537 17 20-01) is unchanged.
