SILENCER

In production a redesigned silencer is introduced on type-03 saws (djungle version) from serial number 5050500. This silencer has a larger volume and is made of thicker steel. As a consequence a longer holding screw is also introduced.

- Silencer 501 59 52-01 is replaced by 503 15 90-01.
- Screw 725 23 82-55 (M6 x 60) is replaced by 725 23 84-55 (M6 x 70).
- Locking plate 501 29 71-01 remains unchanged.
