MODEL **2101** - version -13 jungle

SPIKE INNER - OUTER

One more version for hardwood is introduced.

The bottom tooth is shortened and moved upwards. See illustration.

This modification prevents the saw from getting stuck in the cut and clutch slippage.

The spikes are marked with "J".

Note! It is only valid for version -13 jungle.

| New Ref. No. | Description |
|--------------|--------------|
| 503 16 74-01 | Spike, inner |
| 503 16 74-02 | Spike, outer |

Other versions of spikes will remain in production and as spare parts.

Introduced from serial No. 8390023
