

## Models **36,41**

### Silencer complete

We have introduced a silencer bolt with a diameter of 6 mm from serial number 2390902. The old one was 5 mm.

The following ref.numbers are valid:

New ref.no.	Description	Excluded ref.no.	Remark
530 03 72-51	Silencer, body	530 02 98-07	1
530 03 72-54	silencer cover	530 02 98-08	1
530 03 72-46	Flame protectorr	530 02 98-09	.
530 01 60-44	Bolt	530 01 58-98	.
530 01 48-23	Cylinder compl. 36 cc	530 01 43-03	2
530 01 48-22	Cylinder compl. 40 cc	530 01 43-50	2

**Remark: 1** = Replaced parts are excluded as spare parts. When using old parts and a new bolt 530 01 60-44, the two holes must be adjusted. Use a drill with a diameter of 6,5 mm. (See illustration).

**2** = Replaced parts are excluded as spare parts. When using old cylinders and a new bolt, 530 0160-44, the two holes must be made bigger. Use a drill with a diameter 5,5 mm and drill to a depth of 17,5 mm (See illustration).

**\*** = When using a new bolt, a new flame protector must be used.
