

# 257/262/394/3120

## Hand guard

On models 257, 262, 394 the hand guard has been reinforced and the cast weight has been replaced by a fully cast top section.  
 The hand guard on model 3120 has a weight fitted. This results in the brake also tripping with kickback when the saw is in the felling position.

New Ref. No.	Description	ExcL Ref. No.	Remark
503 72 74-01	Hand guard complete	503 57 32-01	257,262
