

## Model 394

### Starter handle

The same starter handle as used on other models has been introduced on model 394 to meet standardisation requirements. This has led to the reinforcement sleeve unique to model 394 being replaced. The starter assembly complete and the starter housing are fully replaceable, while if a starter handle of an earlier design is fitted, the reinforcement sleeve must be replaced too.

New Ref. No.	Description	Excl. Ref. No.	Remark
503 46 24-02	Starter assembly complete	503 46 24-01	
503 46 25-02	Starter housing	503 46 25-01	
503 54 39-01	Starter handle	503 47 26-01	
501 63 06-01	Reinforcement sleeve	503 60 14-01	

Introduced from serial number: 394 510 0001
