

Royal 43 S/SE

The foam seal between the gearbox and the cutting deck is higher as of from 1995 models. This is to prevent grass cuttings from collecting above the gearing and thereby stopping its movement, resulting in a slipping belt.

New Ref. No.	Description
513 77 98-01	Foam seal

Excl. Ref. No.
513 77 98-00
