

Lawn mowers with Briggs & Stratton XTL engines with catalytic converter

The following kit can be ordered to give the somewhat heavier silencer with catalytic converter silencer extra support.

Assemble as follows:

- 1 Screw (1) and (2) are loosened completely.
- 2 Move the silencer guard (3) to the side.
- 3 Fit the support arm (5) using screw (2).
- 4 Drill two holes \varnothing 3.3 mm in the silencer (6). Use the support arm (5) as a template.
- 5 The support arm (5) is riveted using two, 3.2 x 8 mm (4) rivets.
- 6 Loosen screw (2) completely, fold back the silencer guard (3) and secure using screws (1) and (2).
