Model 265RX

Bevel gear

To reduce the working temperature the sealing ring has been removed. This has been replaced with a spacer ring, sealing collar and O-ring.

NOTE!

The cog set now has a new reference number because the blade shaft and cog have been modified. The modified gear housing cover, 502 22 80-01, only fits cog wheel set 502 22 03-02. The earlier version of gear housing cover, 502 10 69-03, only fits cog set 502 22 03-01.

New ref. no.	Description	Old ref. no.	Remarks
502 10 70-07	Gear unit assy.	502 10 70-05	
502 22 80-01	Gear housing cover assy.	502 10 69-03	R
502 22 69-01	Spacer ring		
502 22 70-01	Sealing collar		
740 44 08-00	O-ring 29.2 x 3		
502 22 03-02	Cog set	502 22 03-01	R
	Sealing ring 20x35x7	740 51 45-00	R

R = Still available as spare part

Brought into production from serial number 6490191.
