English 1 (1)

SB, 240R, 245R, RX, Starter pawl, 1998-06

To prevent the starter pawls binding as a result of corrosion they now have a coating of dacrolit. Dacrolit is a form of galvanizing that does not affect the strength of the component, in contrast to conventional galvanizing.

New ref. no.	Description	Excl ref. no.	Remarks
