**MODEL: 46" Mower Deck**

**SUBJECT: Quality of Cut**

It has been reported that some grass if it has stems or is Bahia Grass that the cut is not clean and some grass & stems are left uncut. A specialty blade has been introduced to give a better cut in these cases. This blade is not for all types of grass and care should be taken when it is used.

- The mower deck should be level per the owner's manual.
- The mowing ground speed should be followed per owner's manual.
- This blade cuts 1/4" lower than the height adjuster indicates.
- Remember to follow all safety and operating instruction in the owner's manual when operating any equipment.

**Part number for blade is 532 15 97-05. Order in multiples of three.**
