Don't Compromise On Belts.

"Will-fit" belts are "about" the right length, made from "about" the right materials, and have "about" the right cross-section.

In other words, they're a compromise solution. They may fit, but what assurance do you have that they'll perform?

MTD Genuine Factory Parts original equipment belts are engineered and manufactured with "stronger than steel" aramid or polyester cords, oil- and heat-resistant rubber compounds, and 2-ply covers. They're the "right" materials, the "right" length, and the "right" cross-section.

Trust Genuine Factory belts to perform for your customers, without compromise.

Model and Serial Numbers Are Useful Tools.

The diagram shows an MTD product label with the following information:

- Transmission Type**: Points to the 'Model Number' field.
- Deck or Housing Size**: Points to the 'Serial Number' field.
- Engine Code**: Points to the 'Model Number' field.
- Month = K (11th month)**, **Date = 04**, **Year = 4**, **Production Date = November 4, 2004**: Points to the 'Serial Number' field.
- Product Type**: Points to the 'Model Number' field. The list includes:
 - PRODUCT/PREFIX
 - Walk-Behind Push Mower 11
 - Walk-Behind Self-Propelled Mower 12
 - Riding Lawn Tractor 13
 - Riding Garden Tractor 14
 - Garden Tiller 21
 - Chipper/Blower-Vac/Log Splitter 24
 - Edger/Trimmer Mower 25
 - Snow Thrower 31
 - Handheld Products (String Trimmer, Chain Saw, etc.) 41 or 42
- Series**: Points to the 'Model Number' field.
- Style**: Points to the 'Model Number' field.
- MTD Reference Number**: Points to the 'Serial Number' field.

The label itself contains the following text:

Meets ANSI B71.1-2003 Safety Standard

Model Number: 13AH762F752

Serial Number: 1K044B40006 000

MTD LLC
P.O. BOX 361131
CLEVELAND, OHIO 44136

www.mtdproducts.com

Knowing the model number and serial number of the MTD product you're servicing makes it easier to look up part numbers and reference materials, order manuals, and ultimately complete the repair. Be sure to have them handy when calling the technical help line or searching online; they'll help you get faster answers.

MTD's model and serial numbers are generally 11 characters in length. A character can be a number, dash or letter. Each MTD model number contains internal codes for product type, series number, engine size, and deck or housing size. The serial number contains internal codes for date of manufacture and production location.

**MTD OHV Engines Meet The Need
For Clean-Burning Cutting Power.**

Today's consumers demand power and reliability in their lawn mower engines. But they also want fuel-efficient equipment that's easier on the environment too.

And that's just what high-tech MTD OHV engines deliver.

MTD OHV engines' technology represents the very latest in 4-cycle engineering. These clean-burning performers make the most of every stroke, maximizing power (25 to 30% more than side-valve engines) while minimizing emissions. In fact, these engines are among the lowest-polluting engines on the market today.

They're also one of the quietest engines consumers can buy.

MTD OHV engines incorporate numerous performance-enhancing features – many inspired by professional-grade engine technology. Each is noted on the chart to the right.

With MTD OHV engines, you can offer consumers a better-running, longer-lasting product – all in a fuel-efficient, environmentally friendly package.

MTD OHV ENGINES ARE ENGINEERED TO PERFORM	
OHV with Cross-Flow Cylinder Head	✓
Mechanical Governor	✓
Cast Iron Cylinder Sleeve	✓
Dual Element Air Cleaner	✓
Forged Steel Crankshaft	✓
Ball Bearing Supported Crankshaft	✓
Electronic Ignition Coil	✓

Star Shape Secures Blades and Spindles.

Most MTD Genuine Factory Parts spindle shafts and blades incorporate our patented star-shaped pattern. This exclusive design allows for the blade and spindle assembly to work in symmetry, resulting in lower deck vibration, increased spindle life, and ultimately, higher customer satisfaction.

Unlike selling “will-fit” options, every time you sell an MTD Genuine Factory Parts blade you can be assured it has met all American National Safety Institute (ANSI) standards. What’s more, every single MTD Genuine Factory Parts star blade fits seamlessly to the spindle shaft, so you can be confident you’re providing your customers the safest and best-performing option available.

Don't Compromise –
Use “The Star”
